### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Barr on 3/12/04.

The application has been amended as follows:

**The original claim 10 has been substituted as follows:**

**Claim 10** A method of releasably coupling a window assembly to an opening of an inner perimeter of an aircraft sidewall, the method comprising:

- providing an outer window frame;
- attaching a center window frame to the outer window frame;
- attaching an inner window frame to the center window frame; and
- releasably attaching the inner window frame to the sidewall, the inner window frame including a releasably coupling mechanism that includes at least one deformable hook and boss for releasably attaching the inner window frame to the sidewall and for indexing a location for attaching the inner window frame to the sidewall, the releasably coupling mechanism further includes a first and a second engaging mechanisms, wherein the first engaging mechanism includes a first flange with a first plurality of teeth

Art Unit: 3644

and the second engaging mechanism includes a second flange, for toothedly engaging the first plurality of teeth to the second flange.

**Claim 11** has been cancelled.

**Claim 12: line 1**, the phrase "The method of Claim 11" has been amended to --The method of Claim 10--.

**Claim 13: line 1**, the phrase "The method of Claim 11" has been amended to --The method of Claim 10--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or render obvious a motivation to provide a method of releasably coupling a window assembly to an opening of an inner perimeter of an aircraft sidewall having the combination of the method steps as claimed in claim 10, especially the step of releasably attaching the inner window frame to the sidewall, the inner window frame including a releasably coupling mechanism that includes at least one deformable hook and boss for releasably attaching the inner window frame to the sidewall and for indexing a location for attaching the inner window frame to the sidewall, the releasably coupling mechanism further includes a first and a second engaging mechanisms, wherein the first engaging mechanism includes a first flange with a first plurality of teeth and the second engaging mechanism includes a second flange, for toothedly engaging the first plurality of teeth to the second flange, these along with the rest of other limitations/features as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Trinh T Nguyen whose telephone number is (703) 306-9082. The examiner can normally be reached on M-F (9:30 A.M to 6:00 P.M).
